2 DAY SNOWMOBILE SAFARI IN THE FELL REGION OF WESTERN LAPLAND

This is a unique opportunity to experience the natural wonders of Lapland. On this safari you drive through Western Lapland's fell region renowned for its spectacular hilly scenery and Europe's cleanest air. This safari is all about experiencing the relaxed, back-to-nature cabin lifestyle enjoyed by the locals. And, the icing on the cake, your safari ends with a visit in the famous Snow Village snowhotel!

Day 1

Meet your guide at the Safari Club in Levi where you will receive safari clothing and driving instructions. The safari route for the first day takes us through some of the most beautiful parts of the fell Lapland region and for a relaxed evening at the cabin. Here you will heat the cabin and prepare a meal with your guide, enjoy a sauna, listen to the silence, take a walk in the moonlight or relax by the fire. The night will be spent in shared accommodation at the cosy wilderness cabin.

Day 2

After breakfast it is time to get back on the snowmobiles. Today we drive to the Snow Village in Lainio. The Snow Village covers an area of approximately 20 000 square metres and is built entirely of snow and ice. Upon arrival you will be greeted by a huge snowy igloo which is packed with beautifully decorated rooms, an ice bar and an ice restaurant. Enjoy a fascinating guided tour followed by a tasty soup lunch, coffee and sweet bun in the log restaurant. After lunch the safari continues towards Levi where it's time to return the thermal clothing and say goodbye to your guide.
